

TECHNICAL DATA SHEET

REPTILE ENCLOSURE INSECTICIDE **(Top of Decent) Spray for Killing & Control of Mites)** **APVMA Approval No. 59308/100g/0108**

Code 4502/100/R

DESCRIPTION

Reptile Enclosure Insecticide (Top of Decent) effectively and safely Kills and controls mites. The aerosol spray leaves an invisible residue that works against mites as well.

Active Constituents: 20g/kg d- phenothrin 20:80

FEATURES & BENEFITS

- APVMA Approval No. 59308/100g/0108
- Complies with WHO specifications for insecticides
- Aircraft Approved by Boeing
- Approved by Australian Quarantine & Inspection Services
- Approved by the NZ Ministry of Agriculture & Fisheries
- The propellants have been tested and approved by the PAFT Committee
- Scientifically evaluated by University of Western Sydney
- Low toxicity, safe for humans and reptiles
- Effectively kills and controls mites
- Non-flammable
- No need to rinse off after application
- Aerosol spray, for an easy application

DIRECTIONS FOR USE

- Remove the water bowl/tub from the enclosure before spraying. After 24 hours bring bowl/tub back to the enclosure.
- Remove the reptile from the enclosure.
- Spray the interior of the enclosure to form enough fume in the enclosure.
- Suggest spray 2-3 seconds for a standard 2 x 3-foot size enclosure.
- Leave the enclosure closed for 10-15 minutes, then return the reptile.
- After 24 hours, return the water bowl/tub to the enclosure.
- After another 48 hours, clean out the enclosure and destroy any substrate (It helps to remove mite eggs).
- Re-spray the enclosures about seven days after the first application, a third application might be necessary, depending on the situation.

TECHNICAL DATA SHEET

OTHER TIPS

- After treating the reptile and the enclosure area, spray a line around the enclosure to create a barrier.
- Frequently (every day or two) spray around the enclosure to keep the barrier working during treatment.
- Suggest using paper as bedding during treatment so that changing the bedding is easier.
- Do not wait to treat mites as they are the No.1 killers of reptiles.
