DESCRIPTION

Reptile Enclosure Insecticide (Top of Decent) effectively and safely Kills and controls mites. The aerosol spray leaves an invisible residue that works against mites as well.

Active Constituents: 18.6/kg d-phenothrin 20:80

FEATURES & BENEFITS

- APVMA Approval No. 59308/100g/0108
- Complies with WHO specifications for insecticides
- Approved by Australian Quarantine & Inspection Services
- Approved by the NZ Ministry of Agriculture & Fisheries
- The propellants have been tested and approved by the PAFT Committee
- Scientifically evaluated by University of Western Sydney
- Low toxicity, safe for humans and reptiles
- Effectively kills and controls mites
- Non-flammable
- No need to rinse off after application
- Aerosol spray, for an easy application

DIRECTIONS FOR USE

- Remove food and the water bowl from the enclosure before spraying the application.
- Leave the reptile in the enclosure.
- Apply a 4-5 second spray for an enclosure of 50cm x 100cm. For larger enclosures, spray for longer.
- Do not rinse the enclosure or the reptile after spraying.
- Replace the water bowl after 24 hours. This will avoid the reptile soaking and reducing the effectiveness of the treatment.
- Can be used directly on the reptiles, spray from a distance of 30cm avoiding the eyes.
- Repeat treatment every 7 days until mites are eradicated.

TECHNICAL DATA SHEET

OTHER TIPS

- After treating the reptile and the enclosure area, spray a line around the enclosure to create a barrier.
- Frequently (every day or two) spray around the enclosure to keep the barrier working during treatment.
- Suggest use paper as bedding during treatment so that change bedding is easier.
- Do not wait to treat mites as they are No.1 killers of reptile.
- Spray the enclosures surrounding areas as well
